On the Subject of Simon Screams

He's angry! He's furious! He's enraged! He's had it!

- This module has six lights colored red, orange, yellow, green, blue and purple. These will flash in a sequence
- that grows longer with each stage. There are 3 stages. • At each stage, consider the whole sequence of flashes. In

the large table, find the first applicable row and the

- first applicable column. From that entry, take the letter corresponding to the current stage and look at its corresponding column in the smaller table.
- Go through that column from top to bottom and press every applicable color ((R)ed, (O)range, (Y)ellow, (G)reen, (B)lue, (P)urple; "#" = serial number).
- Every time the sequence flashes again, your input is reset.
